ABOUT

Computer Science and Engineering undergraduate with a strong interest in programming, web development and problem-solving. Eager to contribute to real-world projects, apply technical knowledge and continuously develop professional and technical skills.

EDUCATION

SRI RAMAKRISHNA INSTITUTE OF TECHNOLOGY Aug 2023 – Present
B.E Computer Science and Engineering - CGPA: 7.2

HOLY CROSSMATRIC HR SECONDARY SCHOOL June 2021 – May 2023
HSC - Percentage: 70

AKSHAYA ACADEMYMATRIC HR SECONDARY SCHOOL June 2020 – May 2021
SSLC - Percentage: Pass

TECHNICAL SKILLS

Programming Languages: C, Java, Python

Web Technologies: HTML, CSS, JavaScript

Core Concepts: Database Management System (DBMS)

PROJECTS

AI in Life Insurance Underwriting Intelligence

- Developed an AI-powered web application for automated life insurance risk assessment and underwriting decision support.
- Implemented OCR-based document processing using Tesseract.js to extract and validate data from insurance documents.
- Built RESTful APIs with FastAPI and integrated AI-based risk prediction models to automate underwriting analysis.
- Designed a responsive React.js frontend and PostgreSQL-backed backend for secure data management and real-time risk evaluation.
- **Technologies :** React, FastAPI, PostgreSQL, Tesseract.js, Python.

VirtualFit – AI Virtual Try-On Web Application

- Developed a full-stack AI-powered virtual try-on web application with user authentication, image uploads, virtual try-on processing, and try-on history management.
- Implemented secure authentication and backend functionality using Node.js, Express.js, SQLite, sessions, and bcrypt password hashing.
- Deployed the application using GitHub and Render, ensuring reliable application performance.
- **Technologies :** Node.js, Express.js, JavaScript, EJS, SQLite, HTML, CSS, GitHub, Render

INTERNSHIP

AI/ML INTERNSHIP TRAINING

AJ TECH RESEARCH LABS - JUNE 2025

- Developed and trained machine learning models using Python for AI-based applications.
- Performed data preprocessing and model evaluation to support accurate machine learning predictions.

CERTIFICATIONS

- Cambridge Linguaskill Business English Certification – Achieved CEFR A2 , demonstrating English communication skills in listening, speaking, reading, and writing.
- Dynamic Programming Camp - AlgoUniversity
- Design Thinking - A Primer – NPTEL

ACHIEVEMENTS

Successfully completed a Python Full Stack Workshop conducted by Sri Ramakrishna Institute of Technology. Gained hands-on experience in full-stack concepts, database integration, and modern development best practices.
